Product & Business Overview

Product Overview

The epic discovery of Nitric Oxide has been effectively applied in a product called ProArgi-9 Plus. This product is quickly becoming a literal medical phenomenon. The virtues of clinical research, the evidence, and the proven benefits of this product have come together creating the Miracle of Health.

Dr. J. Joseph Prendergast

Dr. Joseph Prendergast has been a practicing physician for over 30 years. He is Board Certified in Internal Medicine as well as Endocrinology and Metabolism. Dr. Prendergast has published over 50 medical articles in prestigious scientific journals such as the Journal of the American Medical Association, The New England Journal of Medicine, and Diabetes Care.

Dr. Prendergast has been collaborating with the greatest scientific minds in Cardiovascular research from Stanford, Duke, Harvard, University of Michigan, and Leicester Medical Schools as well as many other research institutions around the world. His passionate pursuit of helping his patients through the utilization of L-Arginine has been exemplary.

For the past 20 years, Dr. Prendergast has been refining an L-Arginine formulation and has administered it to more than 7,000 of his own patients with stunning results.

The Nobel Prize

In 1998, Dr. Louis J. Ignarro was awarded the prestigious Nobel Prize in Medicine "for his discovery concerning nitric oxide as a signaling molecule in the cardiovascular system". The Nobel Prize irrefutably validated the pioneering strategies and medical protocols Dr. Prendergast had been implementing in his medical practice for a decade. He was clearly on the "right track".

"Nitric Oxide has been called the 'miracle molecule', and the 'spark of life' because of its extraordinary importance in the health of virtually every cell in the body" says Dr. Ignarro. This is also why Nitric oxide was named "Molecule of the Year" in 1992 by the journal, Science. Additionally, "increased levels of Nitric Oxide in the human body has shown to be extremely valuable."

Scientific research over the past decade shows that there is a direct relationship between the amino acid, L-arginine, and Nitric Oxide. In fact, we now understand that L-arginine is the only known pre-cursor to Nitric Oxide in the human body. Dr. Ignarro continues, "It is becoming more and more clear that Nitric Oxide is a molecule that may prevent and cure many diseases at once." ProArgi-9 Plus is an L-Arginine Complexer and has been shown to be a very powerful Nitric Oxide donor. This is its power.

Human Clinical Trials

The High Desert Heart Institute (HDHI) provides stellar primary care and heart disease services to its high-risk patient base. The Congestive Heart Failure Unit within the HDHI has conducted the most comprehensive human clinical trial ever conducted on a nutritional supplement. This study reveals profound data that supports the efficacy and the profound health benefits of ProArgi-9 Plus.

This study was fully funded, administered, and directed by the High Desert Heart Institute. Dr. Siva Arunasalam, the Administrator of the hospital, claims the results of this study were "remarkable". The statistical data that supports the findings of this clinical evaluation will soon be published and available for public review.

Measurable Results

Cardio Pulse-Wave (CPW) Technology is the newest technology in non-invasive vascular screening. The CPW is FDA Certified, CE MDD approved, and measures Central Aortic Systolic Pressure (CASP), which can help identify whether you have potential underlying vascular disease. When arteries stiffen, they are more likely to clog and cause heart attacks and strokes. The CPW Screen provides critical information for you that can help you identify problems before they become life threatening. The CPW can now be used to see the improvement of your overall health after using ProArgi-9 Plus.

National Wellness Program

We have partnered with the National Wellness Care Plan Association (NWCPA) to offer you compensation for participating in an online consultation for your personal use of ProArgi-9 Plus. This program offers you insurance benefits in deductible fulfillment up to \$150 per month for usage of ProArgi-9 Plus.
